Competitive Classes

These classes include teaching vaulters the AVA, USEF, & FEI Rules of Sport Competition and focuses on skills that are necessary for successful performance in front of a judge at all levels of competition.

Competitive classes can be combined with the corresponding level academy class or offered separately to help maximize vaulters growth and preparation for each competition.

Academy Classes

These classes are the perfect fit for gaining confidence in your ability to stay on top of the horse and to play with your technical/physical skills as well as your creative side.

We focus on teaching the craft of the sport and to help maximize your performance while having fun and promoting the safety of horse and vaulter. Each academy class can be split into Beginning and Advanced if there is a sufficient number of students.
